

Algebra I
Quiz #5 Warm-up

NAME: _____

DATE: _____ HOUR: _____

Directions: Solve equations using the indicated method. Box and check all solutions.

1. Solve using algebra tiles.

$$x - 5 = 2$$

2. Solve for x.

$$4 + x - 5 = 10$$

3. Solve for x.

$$x + c = -a$$

4. Solve for x.

$$x - b = a$$

5. Solve for x.

$$-b + x = c$$

6. Solve for x.

$$x - a = b$$

7. Write an equation using the variable x. Let x = temperature change.
Solve your equation for x.

Yesterday the temperature was -10° . Today the temperature is 20° . What is the change in temperature?

over
